If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

DETAILED ACTION

Allowable Subject Matter

Claims 1-2, 7-14, 16-53, 57-59, 61-67, 69-71, 73-88, 90-92, and 120-126 (renumbered 1-87) are allowed.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Yung-Hoon Ha (56,368) on 8/13/2008.

The application has been amended as follows, in the Claims:

35. (Withdrawn) The method of claim [[15]] 1, wherein the temperature of the second gas stream is in the range of about minus 250° C to 1200° C.

36. (Withdrawn) The method of claim [[15]] 1, wherein the temperature of the second gas stream is in the range of about 100° C to 800° C

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Applicants arguments filed 5/8/2008 have been considered, and are found persuasive. The examiner must "cite the best references at his or her command." 37 C.F.R. 1.104(c)(2). Here, the "best" prior art is Applicants' own prior patents, and this is not surprising given that the "Howard group" was/is a pioneer in fullerene flame synthesis techniques. The three "best/closest" patents: US 5,273,729, US 5,985,232, and its continuation, US 6,162,411 – all to Howard, et al. – do not describe the particulars of independent claims 1, 51, 91, 120 and 122. Specifically these three patents, while reciting flame synthesis, do not recite the separation and collection steps as claimed.

US 5,304,366 to Lorents, et al., as noted by Applicants in their remarks, does not disclose generation of polycyclic aromatic hydrocarbons (PAH) as claimed. Furthermore, assuming *arguendo* that the separation scheme of Lorents and the flame synthesis of any of the Howard patents could properly be combined, there is strong "secondary indicia" of non-obviousness¹ that supports patentability. For example, see Bogdanov, et al., *Development Prospects of the Commercial Production of Fullerenes*, Technical Physics 2000; 45(5): 521-527 (hereinafter "Bogdanov at ___"). Bogdanov provides a general overview of the state of commercial scale fullerene production. Noteworthy is the discussion of low yields for flame synthesis techniques. (Bogdanov at 524, col. 1). Furthermore, Bogdanov discloses that "it is . . . unlikely that a considerable increase in the fullerene formation efficiency can be achieved with known flame types." (Bogdanov at 524, col. 2). However you couch these findings (long felt need, failure of

¹See *Graham v. John Deere Co.*, 383 U.S. 1, 17-18 (1966) ("Such secondary considerations as commercial success, long felt but unsolved needs, failure of others, etc., might be utilized to give light to the circumstances surrounding the origin of the subject matter sought to be patented. As indicia of obviousness or nonobviousness, these inquiries may have relevancy.").

Art Unit: 1793

others, disbelief/skepticism of experts, etc.), they are taken to be secondary indicia supporting patentability, and are formally made of record here.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DANIEL C. MCCracken whose telephone number is (571)272-6537. The examiner can normally be reached on Monday through Friday, 9 AM - 6 PM EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stanley S. Silverman can be reached on (571) 272-1358. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
